 - 1) reopen suspended trading in a Traded Security at any time;
 - 2) modify the calibration referred to in point 2 and 3 during the Trading Day, effective immediately.
6. The Company notifies the Participants, the Issuer, KNF and the general public of any suspension of trading in Traded Securities and of the period of suspension of trading in Traded Securities.
7. If an Order is placed for a Traded Security during a suspension, the Order will be rejected.

Article 21d – Market Access Restrictions

1. The Company may restrict Participant access to the Market:
 - 1) if required by the safety of trading or the interest of Participants, including:
 - a) if normal market conditions no longer occur with respect to Traded Securities;
 - b) if an MMI occurs;
 - 2) if necessary to ensure the legally compliant performance of obligations of the Company or Participants related to trading in Traded Securities on the Market.
2. In order to restrict Market access, the Company may in particular:
 - a. temporarily limit or stop the placement of Orders of a specific type or all Orders;
 - b. apply mechanisms which restrict the number of Orders per second per Participant accepted in the System;
 - c. cancel Orders which have been placed but not executed.

Article 21e – Placing Orders on the Market

1. The Order will specifically contain:
 - 1) a Traded Security code,
 - 2) a type of Order – buy or sell,
 - 3) the total and the disclosed Traded Security volume (Traded Security quantity),
 - 4) a price and a repo rate for the Order placed on the repo market,
 - 5) a date and time of placing Order on the Market,
 - 6) a Participant,
 - 7) designation of a private individual or an algorithm as responsible for making an investment decision with regard to a specific Order, as agreed in compliance with Article 8 of the Commission Delegated Regulation (EU) 2017/590,
 - 8) designation of a private individual or an algorithm as responsible for executing a specific Order, as determined in compliance with Article 9 of the Commission Delegated Regulation (EU) 2017/590.
2. The designations referred to in points 1.7 and 1.8 are encrypted in the Order. The relevant data, including personal data specified in points 4 and 5 Table 2 in Annex to the Commission

- Delegated Regulation (EU) 2017/580, are delivered to the Company by the Participant, subject to the requirements set forth in applicable laws and regulations, specifically regulations on the protection of personal data.
3. The personal data referred to in point 2 may be used only by the Company to fulfil its obligations referred to in Articles 25.2 and 26.5 of the Regulation No 600/2014 of the European Parliament and of the Council and obligations referred to in the Commission Delegated Regulation (EU) 2016/957.
 4. The designations referred to in points 1.7 and 1.8 are delivered to the Market in the Order in the form of short codes with long codes assigned thereto, which constitutes the data, including personal data provided for in points 4 and 5 Table 2 in Annex to the Commission Delegated Regulation (EU) 2017/580.
 5. The Participant will assign short codes to private individuals and algorithms responsible for performing the activities referred to in points 1.7 and 1.8 under the terms and conditions determined by the Company.
 6. The short code will be unique in terms of activities performed by a specific Participant and assigned to a specific long code. The components of a short code will not reveal identity of persons they refer to.
 7. The Participant may assign short codes to a specific private individual or algorithm, as provided for in point 5, with reservation that these codes will be assigned to the role or function provided for in points 1.7 and 1.8, or it may assign a short code to a specific person or a specific algorithm to act in all these roles and functions. Irrespective of the number of short codes assigned to a specific entity, it has only one long code.
 8. In order to perform the obligations referred to in Article 25 and Article 26(5) of Regulation (EU) No 600/2014 of the European Parliament and of the Council, after receiving long codes, the Company allocates them to short codes in the Order and subsequently:
 - 1) prepares and maintains details of an Order in accordance with the scope, standard and format laid down in Commission Delegated Regulation (EU) 2017/580;
 - 2) reports trades of Participants not subject to the obligations under Regulation (EU) No 600/2014 of the European Parliament and of the Council in accordance with the scope, standard and format laid down in Commission Delegated Regulation (EU) 2017/590.

SECTION V - CONTRACTS

Article 22 - Parties to transactions

1. Parties to transactions concluded on the Market are Participants and, in cases defined in Annex I, also the Clearing Institution.
2. Transactions are concluded on the basis of Orders entered by Participants in the System.

Article 23 – Types of Contracts

Cash Market transactions and conditional (repo) transactions can be executed on the Market.

Article 24 – Execution of Cash Market Transactions

1. Contracts are concluded by the matching, according to procedures laid down by the Company in Article 25, of a Proposal and an Application or of two Proposals. The contract will be deemed to be concluded at the time when the System displays on the screen the matching of a Proposal and an Application or of two Proposals, except for point 1b.
 - 1a. (deleted)
 - 1b. Mid-Price transactions are concluded by matching Mid-Price Proposal and Mid Price Application or two Mid Price Proposals inserted in the Mid-Price order book.

2. A Proposal that has received a partial Application will be considered an effective Proposal for the residual portion, retaining the time priority originally assigned to it, in conformity with the rules established by Article 25.
3. (deleted).
4. In the case referred to in § 21 Section 6, the transaction is concluded by matching the disclosed part of the Proposals with other Orders in accordance with the principles set out in Section 1, however, in the case of partial implementation of the disclosed part of the Proposal, it is subject to updating to the size defined by the Market Maker, and the time of its submission is in conformity with the time of its amendment.

Article 25 – Procedure for Executing Cash Market Transactions

1. Applications are made by indicating the quantity and the "exclusion price". The "exclusion price" indicates the price up to which the best conditions exist for the Participant which sends the Application and hence the price up to which it is willing to execute the contract. The Application is carried out automatically up to the "exclusion price" (included).
2. With the limit of the "exclusion price" standing firm, the matching of a Proposal with an Application which results in the conclusion of a contract, occurs, until the desired nominal value is reached, according to the following criteria:
 - a) firstly the "Best Price" of the moment is applied;
 - b) should there be more Proposals for the "Best Price" of the moment, then the matching occurs according to when the proposals were inserted, starting from the least recent to the most recent;
 - c) if applying the above mentioned criteria the entire quantity of the application is not fulfilled, then the closest price to the "Best Price" is applied. Provisions referred to in points a) and b) will apply accordingly.
3. The provisions contained in the preceding point are also applicable the conclusion of contracts by matching two Proposals.
- 3a. (deleted).
4. It is at the Market Makers' discretion whether or not to accept Applications that are less than minimum trading quantity set for applicable type of Traded Security, according to the requirements specified in Annex C.
5. Mid-Price transaction is executed at the Mid-Price equal to the arithmetic of the best visible buy and sell price on the Market taking into account the following additional system conditions:
 - 1) minimum depth of the Market for a given Traded Security (minimum number of price levels),
 - 2) minimum time of Price stability on the Market,
 - 3) number of price levels which should be taken into account in the calculation,
 - 4) maximum level of spread between the buy and the sell.
9. (deleted).
10. (deleted).

Article 26 – Conditional (repo) Transactions

1. The conditional transactions, i.e. classic repos and buy/sell back, can be executed on the Market through Participants' placing, via the System, Repo Proposals and Applications and on the basis of the provisions referred to in Article 27a and 27b.
2. The detailed principles to execute conditional transactions are described in Annex R.

Article 27– Transaction Registration Procedure

1. All transactions are immediately registered and confirmed to the Participants in an electronic form. For each separate contract, the following information will be recorded:
 - a. identification number;
 - b. code of the Traded Securities;
 - c. type of contract;
 - d. price;
 - e. volume of contracts;
 - f. time of executing the contract;
 - g. settlement and clearing date;
 - h. contracting parties.
 - i. the data referred to in Articles 21e.1.7 and 21e.1.8.
2. If the Participant is unable to verify via the Terminal the contracts it executed via the System, the procedure set out in Annex N will apply.

Article 27a. - Trade Registration Facility

1. Participants may not agree transactions on a preliminary basis unless in cases defined in Article 27a and 27b.
2. Bilaterally negotiated transactions are deemed to be concluded on the Market if they are reported and registered by Participants in the System.
3. The report referred to in point 2 is made when both parties to the transaction place matching Orders.
4. The registration of transactions is conditional on their conformity to the appropriate parameters defined in Annex C.

Article 27b. - Conditions of Registration in the Trade Registration Facility

1. Transactions referred to in Article 27a may be registered if at least one party to the transaction is a Market Maker and the transaction concerns Traded Securities which are traded on the Market, not suspended and not subject to circuit breakers referred to in Article 21c.
2. Transactions may be registered in the System on the basis of:
 - 1) terms of the transaction independently proposed and agreed directly by Participants via the dedicated functionality of the System and subsequently registered in the System as a transaction concluded on the Market, or
 - 2) a dedicated functionality of the System which enables Participants to agree the terms of a transaction on the basis of the best quote of the Market Maker on the Market at the time when the Participant initiating the negotiation of the terms of the transaction submits the application.
3. In the case referred to in point 2, a Market Maker may accept or reject the application of another Participant to negotiate the terms of a transaction.
4. A transaction referred to in Article 27a may be concluded on the cash market or on the repo market provided that both parties confirm the conclusion of the transaction within 120 seconds, starting with the submission of an application by the Participant initiating the negotiation of the terms of the transaction.

Article 28 – Transaction Settlement and Clearing

The transactions executed on the Market are cleared and settled according to Annex I.

Article 29 – Cancellation and correction of transactions

The cancellation and correction of transactions will be carried out by the Company according to the procedure described in Annex O.

Article 30 – Governing Law

All the transactions executed on the Market are governed by laws and regulations in force in the Republic of Poland and the provisions of these Market Rules.

SECTION VI - INFORMATION

Article 30a – General Provisions

1. Any reference in these Rules to “making information public” will mean its publication on the Market’s website, unless applicable regulations or the Rules provide for another method of publication of information.
2. Any reference in these Rules to “delivery of information to the Participant or Participants” will mean delivery of information, using, unless the Rules specify otherwise, a relevant communication method indicated by the Company.

Article 31 – Delivery of Information to Participants

ANNEX R – Particular rules of the conditional (repo) transactions

Article 1

A conditional (repo) transaction is a transaction whereby each party undertakes the obligation towards the other party, one party to sell securities and the other to their purchase and payment of the defined amount of money (the opening transaction). At the same time, within the same transaction, its parties undertake the obligation to the reverse transfer of the same type of securities or equivalent securities contained in the same basket at pre-defined price and date (the closing transaction) unless the parties of conditional (repo) transaction agreed otherwise, on the basis of relevant regulations of Clearing Institution.

Article 2

1. The conditional (repo) transaction that can be executed on the Market is Buy Sell Back (BSB) and classic repo, and Participants may trade both individual Traded Securities and baskets of Traded Securities under the General Collateral transactions or tri-party repo transaction.
2. Tri-party repo transactions post-trade collateral management activities may be carried out on the Market by Clearing Institutions based on the relevant regulations stipulated by this Institution.
3. Tri-party conditional repo trades are classic repo transactions.

Article 3

1. With restriction to point 2, all the Traded Securities admitted to trading, excluding indexed bonds, may be subject to conditional (repo) transactions.
2. All the Traded Securities can be subject to a tri-party repo conditional transaction, with restriction to Article 5 point 1.
3. Minimum trading quantity and trading quantity on the Repo Market is expressed in Annex C.
4. Conditional transactions are concluded in accordance with Trading Day Schedule specified in Annex E.

Article 4

A conditional transaction, excluding tri-party conditional repo transactions, cannot be concluded when the opening transaction clearing date falls before and the clearing date of the closing transaction falls after the record date (the date that determines who is entitled to receive the interest and redemption amount).

Article 5

1. Traded Securities which are subject to a fixing within the meaning of Article 31b of the general part of the Rules and are traded on the repo market may be part of the basket of Traded Securities on which may be concluded General Collateral transaction or tri-party repo transaction.
2. The allocation of Traded Securities in the General Collateral transaction must take place within a 2 hour from the time of its conclusion, but not later than within 15 minutes after the close of the market trading phase.
3. The seller in the opening transaction may allocate not more than 4 series of Traded Securities. In case of allocating more than 4 series of Traded Securities, the buyer in the opening transaction may request to cancel the General Collateral transaction in whole or in part.

4. Allocation of Traded Securities in tri-party repo transaction will be carried out outside the System and will be based on the relevant regulations stipulated by the Clearing Institution.

Article 6

1. The Participant may submit Repo Proposals and conclude transactions on the basis of the provisions referred to in Article 27a and 27b of the general part of the Rules on the repo market.
2. The repo proposal submitted on the Market is provided by the System to all the Participants.
3. Participants may submit repo proposals on the Market to execute conditional transactions, in compliance with Article 21e of the general part of the Market Rules, in particular:
 - 1) name of Traded Securities or baskets of Traded Securities in the case of general collateral proposal or tri-party repo;
 - 2) clearing dates for opening and closing the transaction;
 - 3) repo rate;
 - 4) nominal value of Traded Securities, subject to proposal or value of transaction in case of tri-party repo transaction.
4. The settlement date of an opening transaction cannot be longer than T+2. If the settlement date of an opening transaction is longer than T+2, the Company will cancel such conditional transaction in accordance with section I point 4 of Annex O.

Article 7

1. A conditional transaction is concluded from the moment confirmation of its conclusion by both parties or after 300 seconds counted from the moment of dispatch of the Application to the Repo Proposal issuer.
2. (deleted)
3. (deleted).
4. From the moment of placing the Proposal by the counterparty until the moment of confirming the execution of a conditional transaction by the Repo Proposal issuer, the Repo Proposal remains on the Market and is available to all Participants. The Repo Proposal issuer is obliged to confirm the previous Proposal, subject to point 5.
5. A participant may refuse to confirm of a repo transaction at the time referred to respectively in points 1 or 2. The only reason for the rejection of a repo transaction may be the lack of a credit limit available to the Participant for the counterparty of that transaction.
6. The Repo proposal may be suspended or cancelled by its issuer. After the confirmation of the transaction, the Repo proposal or any of its part being the subject of that transaction is automatically eliminated from the Market.

Article 8

1. The Company provides the Participants in real time via the System, in particular the following information:
 - 1) Repo rates, the volume of the best proposals for individual repo duration - in relation to the submitted Repo proposal;
 - 2) Repo rates, the volume and times of the last transactions - in relation to the concluded transaction.
2. The Company provides a given Participant of the list of transactions executed by this Participant.

Article 9

1. The repo rate (R_r) means an annual interest rate as determined by the parties to the transaction in order to calculate closing transaction value (V_2), based on an opening transaction value (V_1) and repo date (R_d).
2. The closing transaction value is determined in the following manner:
 - 1) for conditional transactions, apart from tri-party repo transactions:

$$V_1 = C_1 \times Q$$

$$C_1 = P_1 \times N + A_1$$

$$C_2 = C_1 \left(1 + R_r \frac{R_d}{D} \right)$$

$$V_2 = C_2 \times Q$$

Index 1 means a parameter of an opening transaction, whereas index 2 means a parameter of a closing transaction.

N – par value of a Traded Security;

Q – number of Traded Securities in the transaction;

D – number of days for the purpose of settlements:

- 365 – for instruments denominated in PLN;
- 360 – for instruments denominated in EUR;

P – transaction execution price expressed as a percentage of a par value;

A – cumulated interest as at the transaction clearing date;

C – clearing price of a Traded Security (expressed in currency of a par value of such Traded Security);

V – transaction value.

- 2) for tri-party repo conditional transactions, where V_1 is a value of an opening transaction:

$$V_2 = V_1 \times \left(1 + R_r \frac{R_d}{D} \right)$$

3. The reference (CLEAN) price P_1 is determined on an hourly basis based on the following formula:
 - 1) It is the last transaction price from the external data stream input into the System during the last hour (the external data stream of MTS system received price information from Bloomberg system),
 - 2) If the price was not determined based on point 1 – the average put/call offer prices from the cash market,
 - 3) If the price was not determined based on points 1 and 2 – the last price from the cash market from the preceding day,
 - 4) If the price was not determined based on points 1, 2 and 3 – the issue price of a TS

ANNEX Q – Commissions for transactions concluded on the basis of the provisions referred to in Article 27a and 27b of the general part of the Rules

- Each Market Maker is entitled to receive a Commission from the Company for transactions concluded with Institutional Investors in the given month on the Cash Market transactions on the basis of the provisions referred to in Article 27a and 27b of the general part of the Rules according to Table A, with restriction to point 8.

Table A

Fee (%)	Gross provision for PLN 1 million traded
0,004%	PLN 40

- The Company prepares for Market Maker a transaction report (Report) with transactions concluded with Institutional Investors transactions on the basis of the provisions referred to in Article 27a and 27b of the general part of the Rules in given calendar month and the amount of resulting gross Commission. The Company provides the Market Maker with the Report right after the end of the month.
- The amount of the Commission is gross if there is VAT due.
- In case of Market Makers for whom the Company issues invoices in Euro, the Commission in the Report will be calculated into euro at the average exchange rate for the Euro published by the National Bank of Poland on the last business day in a given calendar month increased by 2%, with the restriction that the Commission on the request of Market Maker may be calculated in PLN without converting its equivalent. If on a given business day, no average exchange rate for a foreign currency was announced, for conversion purposes, the last average exchange rate for that currency announced by the National Bank of Poland will be applied.
- In case of transactions concluded in Traded Securities denominated in foreign currency, the Company converts the value of transactions concluded by the Participant into zlotys according to the average exchange rate published by the National Bank of Poland on the last business day in a given calendar month. If on a given business day, no average exchange rate for a foreign currency was announced, for conversion purposes, the last average exchange rate for that currency announced by the National Bank of Poland will be applied.
- As for the term related to execution of the service one assumes date of receipt of the Report by Market Maker, which constitutes the base for issuance of an invoice for the Company.
- In order to make use of the right mentioned in point 1, the Market Maker is obliged to issue an invoice for amount indicated in the Report no later than 15 days from the end of the calendar month, in which the Report was received. The Company accepts issuing and delivering the invoice in the electronic form at the address: faktury@bondspot.pl.
- The entitlement for the Commission, mentioned in point 1, for the particular calendar month ceases if the Market Maker has not delivered to the Company the invoice issued in accordance to provisions from point 7, within final deadline of 30 days from the end of calendar month, in which the Report was received, however not later than 2 months from the end of calendar month, for which the Commission is calculated.
- The Company will pay the Commission within 30 days of the receipt of the invoice to the bank account indicated by the Market Maker with restriction to point 10. The day of the payment is the day of debiting the Company's bank account.
- In case the Market Maker is delayed with payment of fees mentioned in Annex P, the Company restricts the right to deduct those fees from the Commission payable to a given Market Maker with no need to individual acceptance by a Market Maker.
